OVERVIEW

REWARDS FOR YOU. TRADING CREDIT FOR YOUR FRIEND.
Your US$10 referral reward and your friend's US$25 trading bonus are separate benefits with separate release conditions.

Programme Detail	At a Glance
Your reward	US$10 referral bonus for each qualifying friend
Friend's benefit	US$25 non-withdrawable trading bonus credit, subject to bonus eligibility
Who can refer	Fully verified clients eligible for the referral programme
Who can be referred	Eligible new clients who have not previously held an XQuotes client profile
Verification	Required for the referrer and the referred friend
Minimum deposit for your US$10 reward	Each referred friend must make at least one successful deposit of US$10 or more.
Trading volume for your US$10 reward	Your friend must complete at least 2 qualifying standard lots in total on an eligible deposit-funded trading account. Trades on an NDB account do not count.
Completed trades for your US$10 reward	Friend completes at least 5 qualifying round trades
Referral limit	No limit on the number of qualifying referrals
Crediting	US$10 is credited for each referred friend after their qualifying deposit, trading requirements and referral checks are complete.
Referral wallet	Dedicated wallet; rewards cannot be withdrawn or transferred while pending
Your reward withdrawals	Available after you accumulate 50 successful referrals, subject to programme checks and withdrawal processing requirements.
Friend's bonus wallet	Dedicated restricted NDB/bonus wallet under the applicable friend-bonus terms
Tracking	Referral and bonus status through the XQuotes dashboard
Availability	Subject to regional, account and partner-programme eligibility

Self-referrals, linked accounts within the same household or using the same device, and re-registered existing clients do not qualify. Certain partner-programme accounts may be excluded.

HOW TO GET STARTED

VERIFY YOUR XQUOTES ACCOUNT
Register if you are new to XQuotes, complete account verification and check that the referral programme is available to your account.

SUBMIT YOUR REFERRAL
Open the Refer a Friend page in your account. Enter your unique account number and your friend's contact information as instructed. Obtain your friend's permission before submitting their contact details. Follow the referral-attribution instructions before your friend registers.

YOUR FRIEND REGISTERS AND QUALIFIES
Your friend opens an eligible account, completes verification and makes at least one successful deposit of US$10 or more. They must also complete at least 2 qualifying standard lots in total and at least 5 qualifying round trades on an eligible deposit-funded trading account. NDB trades do not count toward either referral trading requirement.

Smaller qualifying trades count cumulatively; no individual trade must be 2 standard lots. Eligible friends also receive US$25 in non-withdrawable trading credit under the applicable bonus terms.

RECEIVE AND TRACK YOUR REWARD
Once your friend qualifies and the referral checks are complete, US$10 is credited to your referral wallet. Monitor the status in your XQuotes dashboard and follow the wallet's approved release instructions. Repeat for each eligible friend you refer.

BONUS DETAILS

HOW YOUR REFERRAL REWARD IS CALCULATED
Your reward depends on friends who complete the programme requirements, not simply the number of invitations sent.

Referral bonus = US$10 × number of qualifying friends.

Qualifying Friends	Referral Bonus
1	US$10
5	US$50
10	US$100

There is no limit on the number of qualifying referrals. Rewards are credited in your account base currency at the applicable exchange rate. The US$200 cap discussed below applies to the friend's NDB profit releases, not to your total referral rewards.

REQUIREMENTS FOR YOUR US$10 REWARD

Friend's Requirement	Minimum
Account verification	Complete
Successful deposit	At least one successful deposit of US$10 or more.
Total qualifying closed volume	2 qualifying standard lots in total
Completed qualifying round trades	5

Only eligible trades on a deposit-funded trading account count toward the referral volume and round-trade requirements. No-Deposit Bonus (NDB) trades do not count.

The 2-standard-lot requirement is cumulative across qualifying completed trades in the friend's designated eligible trading account. Smaller qualifying trades count toward the total; no individual trade must be 2 standard lots.

A qualifying round trade is an eligible position opened and fully closed. Count its volume once upon full closure, using standard-lot equivalents under the programme's instrument specifications. Opening and closing are not counted separately. Partial closes do not create additional round trades.

Verification	Successful deposit	Qualifying Volume	Qualifying Round Trades	Referral Qualification
Complete	US$10 or more	1.00 standard lot	5	No—volume is below 2 standard lots
Complete	US$10 or more	2.00 standard lots	4	No—fewer than 5 qualifying round trades
Complete	US$10 or more	2.00 standard lots	5	Deposit and trading requirements met. Eligibility and referral checks still apply.
Complete	None	0 standard lots	0	No. The required deposit has not been completed.

YOUR FRIEND'S US$25 TRADING BONUS

The US$25 is trading credit for the friend. It cannot itself be withdrawn and is separate from the US$10 referral reward paid to you. The bonus must be available in the friend's designated trading account before they can use it.

Benefit or Action	Trading Requirement	Other Conditions
Your US$10 referral reward	At least 2 qualifying standard lots in total and 5 qualifying round trades on an eligible deposit-funded trading account.	At least one successful deposit of US$10 or more by the referred friend. Verification, eligibility, attribution and referral checks apply.
Friend receives US$25 credit	No trading required solely to issue the credit	Bonus eligibility, verification and acceptance
Friend releases NDB profits	At least 2 qualifying standard lots in total and 5 qualifying round trades, with at least one qualifying round trade closed on each of 7 consecutive trading days. All trading requirements must be met within 9 calendar days of NDB crediting.	US$5 minimum per release and US$200 cumulative cap per client. NDB wallet, verification and release checks apply.

Your friend must make at least one successful deposit of US$10 or more and meet the Refer a Friend trading requirements before you can earn the US$10 reward. NDB trades do not count toward referral qualification. An eligible friend can receive the US$25 NDB credit and withdraw eligible NDB profits without a deposit, subject to the NDB Programme terms.

For NDB profit release, only completed trades with an original position size of 0.01 standard lot or less, held for at least 2 minutes, can count toward the 2-standard-lot requirement. Hedged pairs and trades in ETHUSD or WTI crude oil, including USOIL, $SWTI and their symbol variants, contribute zero qualifying volume. Otherwise eligible completed trades may still count toward the separate 5-round-trade requirement. If the trading requirements are incomplete 9 calendar days (216 hours) after the NDB credit is issued, XQuotes automatically removes any remaining NDB credit and all unreleased NDB profits.

The US$10 referral reward is credited to the referrer's referral wallet after a successful referral is validated. It is not a deposit or payment required from either participant. Withdrawal or transfer remains subject to the one-time threshold of 50 successful referrals and applicable programme checks.

WITHDRAWAL RULES

1 

PENDING REFERRAL REWARDS REMAIN RESTRICTED
Record referral rewards in a dedicated referral wallet. Pending rewards cannot be transferred or withdrawn before the friend qualifies and programme checks are complete.

2 

QUALIFICATION TRIGGERS CREDITING
XQuotes credits US$10 to your referral wallet for each friend after that friend makes at least one successful deposit of US$10 or more, meets the referral trading requirements and passes the applicable checks. A pending reward becomes available for use only after XQuotes credits it. Withdrawal and transfer are subject to Rule 3.

3 

WHEN YOUR REFERRAL REWARDS BECOME AVAILABLE
US$10 is credited to your referral wallet after each friend qualifies and programme checks are complete. You must accumulate 50 successful referrals before your credited rewards become available for withdrawal or transfer, subject to applicable withdrawal requirements.

4 

KEEP THE FRIEND'S CREDIT SEPARATE
The friend's US$25 bonus principal remains non-withdrawable. Their bonus profits stay in the restricted NDB wallet until their own qualification and checks are complete.

5 

APPLY NDB RULES ONLY TO THE FRIEND'S BONUS PROFITS
Your friend's NDB profit release is subject to the trade-size, holding-time, qualifying-volume and trading-day rules in item 10 of the applicable NDB Terms & Conditions. If your friend misses the 9-calendar-day deadline, XQuotes automatically removes any remaining NDB credit and all unreleased NDB profits. The US$5 minimum per release, US$200 cumulative cap per client, credit-deduction rule and requirement to close all NDB positions before profit release also apply.

6 

DO NOT APPLY DEPOSIT DEDUCTIONS TO REFERRAL REWARDS
The deposit offer's proportional bonus-removal formula does not govern your US$10 referral reward. The NDB profit cap and credit-deduction formula do not limit your total qualifying referral rewards.

7 

TRACK AND QUERY YOUR REWARDS
Review referral and wallet status in the dashboard. Contact support if a referral remains pending, is rejected or differs from the programme requirements.

TERMS & CONDITIONS

1. Promotion period

The programme is available from 11 November 2026, 00:00 server time (GMT+8) until further notice, subject to availability confirmed for the client before participation.

2. Referrer eligibility

Fully verified XQuotes clients may participate where the programme is available and their account meets the eligibility requirements. Certain partner-programme accounts may be excluded. Eligibility under the deposit welcome offer does not automatically establish referral eligibility.

3. Referred friend eligibility

The friend must be an eligible new client who opens an account and completes verification. Re-registered existing clients do not qualify. Applicable age, residency and account-opening requirements apply.

4. Referral submission

The referrer must submit their unique account number and the friend's contact information through the Refer a Friend page as instructed. Obtain the friend's permission before submitting their contact details.

5. Successful referral

A successful referral is an eligible new client who completes verification, makes at least one successful deposit of US$10 or more, and completes at least 2 qualifying standard lots in total and at least 5 qualifying round trades on an eligible deposit-funded trading account. Only eligible trades on that account count toward these trading requirements. Smaller qualifying trades count cumulatively. All applicable eligibility, attribution and referral checks must be satisfied.

Each successful referral generates one US$10 reward for the referrer. Withdrawal or transfer of accumulated referral rewards remains subject to the 50-successful-referral threshold.

6. Counting trades

A qualifying round trade is an eligible position opened and fully closed. Its volume is counted once upon full closure, in standard-lot equivalents under the programme's instrument specifications. Opening and closing are not counted separately.

Smaller qualifying completed trades accumulate toward the 2-standard-lot requirement in the friend's designated eligible trading account. Partial closes do not create additional round trades.

7. Referrer reward

US$10 is credited per successful referral. There is no limit on the number of qualifying referrals. Each friend qualifies for one referral attribution only; duplicate submissions do not create additional rewards.

8. Crediting and currency

Rewards are credited after qualification and programme checks, not at sign-up. Amounts are credited in the referrer's account base currency at the applicable exchange rate.

9. Referral wallet and reward release

XQuotes credits US$10 to the referrer's dedicated referral wallet after validating each successful referral under item 5. A reward may be used once credited, subject to the applicable referral wallet rules. The referrer may withdraw or transfer credited rewards after accumulating 50 successful referrals and completing the applicable programme checks.

The threshold applies once per referrer. After it is met, accumulated rewards become available for withdrawal or transfer subject to normal processing requirements. Rewards from subsequent successful referrals become available after validation without requiring another block of 50 referrals.

10. Friend's trading credit

Eligible friends receive US$25 in non-withdrawable trading credit under the applicable friend-bonus terms.

11. Friend's profit withdrawals

Where the friend's US$25 trading credit is issued under the NDB Programme, profit release is subject to item 10 of the applicable NDB Terms & Conditions, including its trade-size, holding-time, qualifying-volume, trading-day, deadline and automatic removal rules. Eligible profit releases are subject to a US$5 minimum per request, a US$200 cumulative cap per client, and the NDB wallet, credit-deduction and verification rules. Items 5 and 9 of this Refer a Friend Programme govern the US$10 referral reward.

12. One welcome offer for the friend

If the friend's US$25 is the NDB welcome offer, it is granted once, subject to NDB household and IP restrictions. It cannot be combined with either tier of the deposit welcome campaign. The referrer's right to earn qualifying referral rewards is separate and must not be confused with the friend's welcome-offer selection.

TERMS & CONDITIONS

13. Self referrals and linked accounts

Self-referrals and linked accounts within the same household or using the same device do not qualify. Shared addresses, IPs or payment accounts may be reviewed under the approved linked-account controls; any NDB-specific restrictions apply to the friend's bonus under its terms.

14. Genuine referrals and misuse

Fake or duplicate registrations, manipulated trading and private incentives offered to manufacture qualifying registrations may void the reward. The programme's advertised US$10 reward and eligible US$25 friend benefit are authorised incentives. XQuotes may withhold rewards where abuse is identified, subject to the programme's review and notice provisions.

15. Tracking and reward corrections

Referral progress and bonus status are available through the XQuotes dashboard.

16. Separate incentives

Referral rewards, NDB credit, customer cashback, self-rebates and partner commissions are governed by their respective programme terms. NDB credit and trading activity on an NDB account do not count toward the Refer a Friend deposit, trading-volume or round-trade requirements. The friend's NDB credit and eligible profits remain subject to the NDB Programme terms.

17. Changes to the programme

XQuotes may amend or end the programme with notice on its website. Qualified rewards remain subject to the terms in force when they qualified, as stated in the supplied programme summary.

18. Trading risk

Referral rewards depend on qualification and are not guaranteed by sending invitations. Trading profits are not guaranteed. CFDs are leveraged products and carry a high risk of losing money rapidly. Read the risk disclosures before inviting anyone to trade. Risk disclosures: https://www.xquotes.co/company/risk-disclosures

19. Full terms and support

These key terms summarise the referral programme and do not replace the approved full referral terms or the friend's bonus terms. Referral terms: https://www.xquotes.co/incentives/refer-a-friend. For assistance, contact XQuotes through the Client Portal.
